Easy coconut balls with strawberries

Ingredients

♥ 20 coconut buns
♥ 1 basket of sweet strawberries

Instructions

Place the coconut balls on plates.

Clean the strawberries and cut them into small pieces.

Use a small knife to cut out a hollow at the top of each coconut ball, and press down with a small teaspoon to expand the hollow slightly.

Press some strawberry pieces into each coconut ball!

Ready for serving! □□

Tips

♥ I used store-bought coconut balls here. If you wish and have the time, you can of course use fantastic homemade **Coconut Balls**.

♥ The coconut balls should be kept at room temperature so that the foam inside is soft and fluffy. If you put them in the fridge, the foam will become harder.

♥ The quantity indication is of course flexible here, so make as many or as few as you want to serve.

♥ Easy coconut balls with strawberries should preferably be made just before serving.
